Kevin Blencowe

I have been a member of the Governing body as a parent governor since November 2014. In July 2015 I was elected as Vice-Chair to the Governing body and Chair of Finance. I am a qualified accountant working within the food manufacturing industry. My wife and I have three children aged seven, five and three, the oldest two being current pupils of the school. For this reason I have a long term vested interest in partnering the school to help deliver current and future pupils with the education they deserve, which is so important in their primary school years.

In my spare time I enjoy participating in sports, reading, music, spending time with my family and friends and coaching an under 7's football team.
