

I have been working in Primary education from 2004. I love teaching and the impact it has on young minds especially. As a class teacher, your class are and rightly so your main focus. However, since coming out of the classroom I appreciate more how everyone involved with the school has a part in giving our children the best education and start to life possible. My daughter is currently in Year 1 after enjoying an excellent Early Years. As a Governor I look forward to helping and supporting the school in lots of ways. By working together we can ensure all children are successful in life.
