

Supporting Children with Homework (Primary)

Are you confident in supporting your children with maths?

Would you like to understand how maths is taught in primary schools?

Are you familiar with different learning strategies including use of concrete resources to aid a child's development?

As parents and carers it's important to play an active role in supporting your child's numeracy development. As part of the Multiply initiative, Runway Training are offering a chance to develop your understanding of how children are taught maths at primary school. This short, interactive course features practical examples and will improve your own confidence and ability in an area that many find a challenge.

Places are filling up fast, so we recommend booking as soon as you can so you don't miss this fantastic opportunity.

“Our aim is to educate and inspire learners to develop the skills they require to achieve their goals”

Runway Training was established in 2008 as a training provider specialising in adult literacy and numeracy, to date, we have helped over 50,000 learners achieve nationally recognised qualifications. With a highly skilled delivery team possessing a wealth of industry knowledge and using a unique blend of paper based and e-learning, we aim to cater for each and every individual, and we do not believe that 'one size fits all'.
