

# Engagement Plan: Year 1 Summer Term 2

## National Curriculum

As Historians we are learning about prehistoric Whit-tlesey.

As Geographers will we be learning about physical fea-tures of the UK.

As Scientists we are learning about British animals and their habitats.

As Artists we are going to be making sculptures using clay.

As Computer users we will be using computers to ana-lyse data.

As Writers we will continue to develop our style and composition.

As Mathematicians we will continue to build on our knowledge of number, fractions, time and measure-ment.

As Readers we are continuing to build on our phonic knowledge, fluency, inference and understanding.

## Curriculum Drivers

### Energy For Life

For our health, we will be developing our fitness levels.

In sport, we will be developing our running skills.

### Energy for Learning

To improve our knowledge, we will engage in a range of exciting experiences.

To improve our skills, we will work on our own individual targets.

To demonstrate good learning attitudes, we will try new things.

### Energy for the Environment

To recycle, we will continue to put our recyclable waste in the correct bin

To reduce, we will look after our equipment care-fully

To reuse, we will use old tyres for making planters in our garden.
