

Help at Home- Year 4

Target	Example Questions	Ideas to try:			
Recognise the place value of each digit in a four-digit number.	<ul style="list-style-type: none"> Write the following as a number: Four thousand, two hundred and twenty eight. What does the 9 represent in 9304? 	<p>How many different ways can you write 5510?</p> <p><i>Pupils should suggest answers such as:</i> 551 tens 55 hundreds and 1 ten 5 thousands and 510 ones</p>			
Solve addition and subtraction multi-step problems, deciding which operations and methods to use and why.	<ul style="list-style-type: none"> I score 1932 points on my Xbox game on Monday and 312 on Tuesday. On Wednesday I scored 64 points. My brother scored 6435 points in the same week? How many more points did he score? 	<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 33%; vertical-align: top;"> $\begin{array}{r} 1932 \\ + 312 \\ \hline 4 \quad (2+2) \\ 40 \quad (30+10) \\ 1200 \quad (900+300) \\ \hline 1000 \\ \hline 2244 \end{array}$ </td> <td style="width: 33%; vertical-align: top;"> $\begin{array}{r} 2244 \\ + 64 \\ \hline 8 \quad (4+4) \\ 100 \quad (40+60) \\ 200 \\ \hline 2000 \\ \hline 2308 \end{array}$ </td> <td style="width: 33%; vertical-align: top;"> <p>Subtract from 6435 in the same way.</p> </td> </tr> </table>	$\begin{array}{r} 1932 \\ + 312 \\ \hline 4 \quad (2+2) \\ 40 \quad (30+10) \\ 1200 \quad (900+300) \\ \hline 1000 \\ \hline 2244 \end{array}$	$\begin{array}{r} 2244 \\ + 64 \\ \hline 8 \quad (4+4) \\ 100 \quad (40+60) \\ 200 \\ \hline 2000 \\ \hline 2308 \end{array}$	<p>Subtract from 6435 in the same way.</p>
$\begin{array}{r} 1932 \\ + 312 \\ \hline 4 \quad (2+2) \\ 40 \quad (30+10) \\ 1200 \quad (900+300) \\ \hline 1000 \\ \hline 2244 \end{array}$	$\begin{array}{r} 2244 \\ + 64 \\ \hline 8 \quad (4+4) \\ 100 \quad (40+60) \\ 200 \\ \hline 2000 \\ \hline 2308 \end{array}$	<p>Subtract from 6435 in the same way.</p>			
Recognise and use factor pairs.	<ul style="list-style-type: none"> List 3 factors of 12. What factors do 12 and 24 have in common? What is the next multiple of 4 in this sequence: 4, 8, 12, , 20, 24 	<p>Factor bugs!</p>			
Multiply two-digit and three-digit numbers by a one-digit number using a written layout.	<ul style="list-style-type: none"> $825 \times 7 =$ $93 \times 8 =$ 	$\begin{array}{r} 800 + 20 + 5 \\ \times \quad \quad \quad 7 \\ \hline 5,600 \quad (800 \times 7) \\ 140 \quad (20 \times 7) \\ \hline 35 \quad (5 \times 7) \\ \hline 5,775 \end{array}$			
Multiply 3 single digit numbers	<ul style="list-style-type: none"> $4 \times 5 \times 3 =$ 	$4 \times 5 = 20, 20 \times 3 = 60$			
Find the effect of dividing a one- or two-digit number by 10 and 100	<ul style="list-style-type: none"> Gary has 20 marbles. John says "I have ten times less than you!" How many does John have? $12 \div 10 =$ $20 \div 100 =$ 	<p>Please don't tell children to 'add a zero,' as this causes complications in other areas of maths when working with decimals. The numbers move left or right around the decimal point:</p>			

<p>Reflect a shape in a line of symmetry.</p>	<p>Reflect these shapes in the mirror line:</p> 	<p>Try painting on one half of a piece of paper. Fold it down the middle whilst the paint is wet, press down, and open it up to see your reflected pattern!</p>
<p>Identify acute and obtuse angles and compare and order angles up to two right angles by size,</p>	<ul style="list-style-type: none"> • Measure the angle using a protractor. • Measure the angle and say whether it is acute ($0-89^\circ$) obtuse ($91-179^\circ$) or a right angle. 	<p>Invest in a pocket protractor. Ask the children to help with small DIY projects (if you're brave!)</p> <p>(On a long car journey) "How many acute / obtuse / right angles can you see?" "How many angles bigger/smaller than 90° can you see?"</p>
<p>Measure and calculate the perimeter of a rectilinear figure.</p>	 <p>Calculate the perimeter of the shape.</p>	<p>Calculate the perimeter of the garden by getting your child to add up (made up!) measurements you give them.</p>
<p>Describe positions on a 2-D grid as coordinates in the first quadrant.</p>	<p>What are the co-ordinates of the square? Label the co-ordinates of this shape.</p>	<p>A game of battleships is a great place to start with co-ordinates.</p>

In addition to this, your child should know the 2, 5 and 10 times tables and division facts and be starting to recall the 3, 4 and 6 times tables and their corresponding division facts.
